Residence: Alajuela, San
Ramón, Berlín
ID: 2-0805-0148

ABOUT ME

Computer Engineer with a year and a half of experience in technology, including software development, database management, and web optimization. Proficient in technologies such as C# .NET, SQL Server, React, and WordPress, and experienced in agile methodologies like Scrum. Passionate about solving technological challenges, continuous learning, and process improvement to deliver efficient and high-quality solutions.

PROFESSIONAL EXPERIENCE

Intern Junior Developer

Simetría Soluciones Digitales, May 2024- August 2024

- Development, maintenance, and optimization of WordPress sites: Created websites from scratch for libraries, ensuring accessibility and ease of use. Also optimized the aesthetics and functionality of an existing site to improve appearance and usability, providing a more intuitive and appealing user experience.
- Database administration and optimization in SQL Server and phpMyAdmin: Managed and optimized databases by creating stored procedures, improving process efficiency and reducing load times in applications.
- REST API development with Dapper for database and front-end integration: Created REST APIs using Dapper to connect an SQL Server database (optimized with stored procedures) with the React front-end, facilitating efficient communication and improving user interaction with data.
- Basic QA and website maintenance: Conducted basic quality assurance (QA) tests to identify and document improvement areas on websites, ensuring each section functions correctly and facilitating continuous maintenance.

EDUCATION

Castro Carazo University
Bachelor's in Computer Engineering
2022 - 2024

Colegio Bilingüe Palmares
High School Diploma
2013 - 2018

CERTIFICATIONS

CCNA 1: Introduction to Networks – Cisco (2024)
Scrum Certification – (2024)

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript, PHP, C# (.NET CORE), Oracle forms, Apex, node.js.
- Databases: Microsoft SQL Server, MySQL, Oracle.
- Web Development: HTML, CSS, React, Laravel, Sass, WordPress with Plugins, Bootstrap.
- Development and Productivity Tools: Azure DevOPS, Git, Swagger, Visual Studio Code, Visual Studio 2022 Community, Postman.
- Architecture and Methodologies: Clean Architecture, Scrum.
- Networking and Infrastructure: CCNA 1 (Cisco) – Fundamentals of networking and device configuration.

SOFT SKILLS

- Teamwork.
- Flexibility.
- Quick learning.
- Analytical skills.

LANGUAGES

- English: Basic
- Spanish: Native
